Tutoring Experience

My tutoring career began 12 years ago when I realized my passion for helping students navigate challenging subjects. I have since tutored over 200 students across various international curricula, including IB, AP, A-Level, and IGCSE. My approach is student-centered, focusing on individual learning styles and needs, which has consistently led to significant improvements in grades and understanding. I specialize in TOK, where I guide students through the complexities of knowledge theory and help them excel in their assessments. In Politics and Biology, I encourage critical thinking and a deep understanding of the material, while my support in the Extended Essay process has helped numerous students achieve top marks. My commitment is to see my students succeed.
