

🎓 Qualified IB Tutor | MSc in Theoretical Physics

As a 27-year-old Oxford graduate, I bring a passion for critical thinking and problem-solving to my tutoring sessions. With a background in Religious Studies and Mathematics, I aim to inspire students to approach subjects from multiple perspectives. My goal is to empower students, helping them excel in their IB exams and beyond.

Teaches: TOK Oxbridge Extended Essay Maths Religious Studies

Curriculum: IB A-Level IGCSE GCSE

### Vetted Tutor

## Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

### Tutoring Experience

2016–2017:

While studying at Oxford, I began tutoring A-Level students in Religious Studies, focusing on ethical theories and the philosophy of religion. My sessions were tailored to deepen their understanding and prepare them for their exams.

2018–2019:

After graduating, I expanded my tutoring to include IB TOK and Extended Essay support. I worked with students one-on-one, helping them develop coherent arguments and refine their essay-writing skills. My guidance was instrumental in several students achieving top marks in their IB assessments.

2020–present:

In recent years, I've specialised in tutoring Maths for IB students, providing them with strategies to tackle complex problem sets and improve their exam performance. Additionally, I've continued to mentor students in TOK, encouraging them to explore knowledge questions with confidence.
